

11/17/70 Sorry I laid this aside and forgot to mail. Been pretty busy. We lost to government's motion to dismiss yesterday and are appealing. I think it likely that whatever happened we'd have lost, with that judge, but we could and should have had a better record. I expect to be doing a lengthy memo as soon as I can, if you have any interest. Expect to have copy transcript Thursday and will then know cost making copies, if interested. I think I'm content that I'll be my own lawyer in all other cases. At least I'll make a record. An enormous amount of my work went to waste-by not being used-and it is now clear it should have been. If it is not as bleak as it sounds, it is far from good, for there is no such things as a successful defeat, even if some benefits accrue...I'm using things in coming and filed complaints that otherwise I wouldn't. I ask, if you get any, as you are welcome to do, that you understand any new information in them is not for any distribution. You trust people I do not and I want to control the use of my own material. Best, HW
