

3/30 Jerry, Flo Kennedy and others are starting an assassination committee to help. I've spoken to him only. She is out of town. I've urged that this one be restricted to the King assassination (their purposes are to help me and the book and the truth) for a variety of reasons, including the existence of others for the other assassinations and in an effort to bypass media hangups on JFK. They are looking for people whose names can help, Jerry tells me. If you have any suggestions, they cannot but be helpful. I have made a few to Jerry and I've spoken to another who may be able to help.
