

PETER PAUL GREGORY, 3513 Dorothy Lane, Fort Worth, Texas, furnished the following information:

GREGORY recalled that on one occasion when LEE OSWALD came to his office in the Continental National Life Building, he had some typewritten sheets of paper in his possession and mentioned to GREGORY that he was working on writing a book. He showed one sheet of paper to GREGORY, and it had some kind of photograph of the factory where OSWALD is reported to have been employed while in Russia. GREGORY never read anything on these sheets of paper, and, in fact, OSWALD never showed him all the writings that he had. This was the only time he had ever talked to OSWALD about writing a book, and he could not furnish any information as to the contents of these sheets of paper.
