

## FEDERAL BUREAU OF INVESTIGATION

1Date 12/24/63

THOMAS RAY, six miles northeast of Blossom, Texas, advised that since he had been previously interviewed he had discussed all of the information he had previously reported with his wife, and she had made every effort to recall everything she had discussed with her countrymen and LEE HARVEY OSWALD at Dallas, Texas, over the holiday weekend of December 28-30, 1962. He stated that he did not know of anything else he could furnish since, as he had previously reported, he did not enter into the conversations that the former Russian citizens had had among themselves and with LEE HARVEY OSWALD. He said, however, that during his discussions with his wife, they had agreed that the name of the couple who lived in a lavish home and were from an old pioneer Dallas family, was JACKSON. He said he did not know the address of the JACKSONS but was sure that some of the Dallas people at the Ford party could furnish that information. RAY said that one matter that has caused his wife much concern since he had talked to her was the fact that OSWALD had been so easily married in Russia, and the fact that the OSWALDS encountered no difficulty in getting out of Russia to come to the United States. He said that apparently this matter had been discussed by several Russian members at the party on the evening of the Ford party and subsequent meetings during the weekend in Dallas in December, 1962. RAY explained that his wife would be able to furnish more complete information.
