Dear Mrs Meagher,

Thank you for the further clarification of the Scott article. Your scholarly efforts rebuke those who require a dramatic and simplistic solution to a labyrinthine problem.

Vincent Salamone advised me to read "The Times-Picayune of New Orleans. They have a rough transcript of The Shaw Trial. Careful reading of that record will indicate who killed N.F.K."

Evidently, make "careful" reading  
is required.

What is your interpretation  
of The Moorman photo?

Does a blow-up of it  
reveal the presence of  
man-like images behind  
the wooden fence as Lane  
and Marcus allege?

The reaction of the photo  
reproduced in "Six Seconds"  
in Dallas was unadventurous  
to me.

Sincerely,

Edward P. Williams
