Dear Sylvia,

Please keep the enclosed articles. They are quite factual - and chilling.

Let me give you a confidential analysis of "The Weisberg Papers". Harold has done outstanding research on the autopsy and the documentation is very impressive. The New Material caused itself to a very sensational article by being it to such topical, New themes as Militarism, Secret Rulers, Govt. Forgeries... The Death Certificate caused the lead page with a title on the lines of "The Pentagon Papers of Dallas".

Is it not gratuitous to add that Harold very bitterly rejected this

suggestion?

Until Jerry read Mr. "One of his recent letters, a shockingly obscene and extended scatological outburst addressed to George M. Miller, I had no concept as to the extent of his illness. Harold is my friend and I have only compassion for the man.

I advise you, however, to exercise caution - - - - .

Sincerely,
