Dear Susie,

Still on
the case "after
all these years"!

Hope the
unsublined area
is followed up.
Have always
believed false
medical data
was substituted.

What's new?

Sincerely,

A large, stylized handwritten signature, possibly initials, consisting of several overlapping loops and a long horizontal stroke extending to the left.

THAN NEVER
TO HAVE CRABBED
AT ALL.

IT IS BETTER TO HAVE
CRABBED AND FUSSED....
