

10/23/81

Dear Sylvia,

Of course one was
basically surprised that
Orwell was in Orwell's
charge. Did some suspect
that Ruby would do that,
perhaps?

Lifton exaggerates "The Establishment"
by exculpating the
Berberda autopsy. Faced
with completely irreconcilable
testimony between Palamed
and Berberda, Lifton comes
up ^{with} a novel "trompe-l'oeil",
novel out ahead. Since this
elaborate plan of "Ruby"
switching "double baskets"
etc. had to be orchestrated
before 11/22 one must ask,
why would they bother?
After all, had the catch
was in front of J.F.K.
and that would give
them a reasonable trajectory
for all back shots or all
front shots or whatever.
Best Evidence has some
discrepant material but
reads like a demented
Agatha Christie plot.

It's amusing to find
Blakely Cartigata The Dept.
of Justice and The F.B.I.!
The conspiracy has grown
to include "Mongoose"
CIA agents, Anti-Castro
killers posing as pro-
Castro followers, "The Mob",

Take 1 July et al.

The failure to allow the Dallas Medical personnel to inspect the autopsy photographs was an immediate investigative gaffe. Since it was the heart of W.R. criticism could such a lapse be other than malicious? After all, suppose Parkland rejected the authenticity of the "lost evidence" as some Parkland doctors did after the H.S.C.A. Report was issued. The obvious attitude notes that the W.C. Artist was at a disadvantage since he drew from instructions only. No doubt!

The Bethesda personnel waved it over to the H.S.C.A. staff until Blakey got Harold Brown, The Secretary of Defense, to rescind the gag order of Stover. What caused their now without concealing perjury, obstruction of justice etc.

Bethesda deal. Later, the autopsy was improved by artful substitution of material.

The Walker Bullet, the ballistic anomalies at the Tippitt scene - these well known about a year were ignored.

It's amazing! Congress asks the D.F. to examine the acoustic data and they finally issue an invalid report. Has the National Science Foundation issued its report?

Too Bad Your Book is not selling well out

them you didn't name
the assassins!

Baker says Breeding was
uninvolved in both Kennedy
assassinations. Why did he
classify the Breeding interview
them?

Amazing.

Glad to hear that you're
feeling better.

You must have caught
yphlebitis from Hawaii!

I feel very good and
the family is fine.

Sincerely,
