

The whoring with the assassination and the insanity of some of the allegations about me

It is not now possible to take the time to write those who ask me about such awful trash ad <sup>Posner</sup> Paner and Livingstone commercialize and exploit the assassination with. In writing that may or may not be published I am doing that in detail.

What they both say ranges from deliberate distortion to outright lies. The most vicious of these is by that subject-matter ignoramus Harry Livingstone- who as you'll see in his High Trash 2 could not stop praising me for what I did and my help to him and now says the opposite. I never worked for or <sup>had</sup> any relationship with H.L.Hunt. But how could that and his allegation that I was fired by the State Department as red both be true? Neither is. I was fired by State in a pogrom, <sup>with</sup> out any charges, along with ~~nine~~ nine others, eight of them Jews, the other a case of mistaken identity. We fought it, were rehired with a public <sup>s</sup> apology, and we all resigned. I was not fired by the Senate committee, for which I worked detailed from the executive department; I had nothing to leak and leaked nothing; I was not then still an investigator-I'd been its editor for several years. Neither one of those scum\* checked anything with me and they also did not report that I make all those FBI records available to everyone who comes here and uses my ~~files~~ files. In that same file is the refutations, including the filing of correction in the Senate Intelligence Committee's records by Harry Goldwater. Either they used that file dishonestly or had slanted information fed to them, but neither wanted to learn the truth, neither ever spoke to me about it when here or later, both were here and had free access to all I have plus the use of our copier, Posner used those records he got here as his own work, and Livingstone had a <sup>B</sup> Baltimore cop doing most of his work here, making ~~use~~ unsupervised use of all, as who who write in the field can. I think they describe themselves better than I can when they repay this kind of hospitality and free help with the kind of personal villifications you have read. *The cop was also a thief!*

Without a substantive criticism of any of my work, and the one Posner attempted was just plain wrong, so I <sup>on</sup> wonder which of the right-wing nuts he used as the best of sources fed him that crap. From the book he says he did not read and is not in his bibliography. Neither has any concept of honesty or decency and Livingstone is in addition just plain ~~nut~~ nuts, <sup>as</sup> the most casual reading of his mishmash with the self-descriptive title make apparent.

Harold Weisberg.
