

Dear Mr. Neichter,

5/24/92

I do appreciate your letter and kind remarks very much. At 79 and in impaired health I appreciate these kinds of letters more than I would have although they <sup>ways</sup> ~~all~~ made and make me feel good and that my time was well spent.

Most of the people, including those you name, know nothing at all about the facts of the JFK assassination so they say anything and have no idea what it can mean.

What Kilduff says about three shots, three hits, may well be what he learned from the FBI or Secret Service, both of whom to the best of my knowledge still believe and say that. Ignoring the missed shot.

McDonald's book is a complete fake.

The only available book I can recommend, and I recommend it highly, is the current Vintage reprint of Sylvia Heagher's Accessories after the Fact.

I know for sure, <sup>later</sup> ~~beated~~ as I was in admitting it to myself, that Garrison and his investigation were real frauds. Nothing had any validity except some of what he cribbed from others that you'd recognize. The rest he just made up, impossible as that may seem to be.

We don't know what really happened and can't know because the crime itself was never officially investigated. This means no leads to be followed.

Ask Pugliesi what copies of the quarter of a million and more JFK assassination records that mostly I rescued from official oblivion has he gotten and studied so he can speak with authority and if as is certain he has none, without knowing what they say how dare he speak with pretended authority - and what would happen to him if he pulled something like that in court.

I'm sending you ~~perewith~~ <sup>enclosed</sup> the first four of my books, the first in the only available version. They cost \$51.40. You ~~reclised~~ <sup>reclised</sup> a check for \$50. If you want Post Mortem, which is a very large and detailed book with 200 pages of facsimiles of records, that is \$12.50. Same price for Frame-Up, my book on the King assassination.

The only way I can make Oswald in New Orleans available is by a quality xerox, with a durable binding, printed two pages on one side of 7 1/2 x 8 inch paper, at \$27.00.

I suggest that you read these books in the order of their appearance.

But if you decide to get Post Mortem, I suggest that when it reaches you you read the executive session transcript that begins on 475 and then return to where you were reading. That transcript will give you the feel of the commission and its thinking.

Thanks again and best wishes,

Our supply of the first is exhausted. I've <sup>sent</sup> ~~ordered~~ more. I'll ~~send~~ <sup>send</sup> one as soon as we get them. If you've not heard from me by the middle of next month please remind me.
