Again thanks for your thoughfulness, and even its timing! It was a pleasant moment on a rough day when our woman rural substitute carrier came to our home for the first time. She must have been told by the regular carrier, also a woman, that I am limited in what I may lift because she came right to the door and carrier that great box in. They are required only to leave them at the base of the box along the road. So I opened the box and gave her one and did her eyes open when she saw the size!

It is geneerous as well as thought and we do appreciate it very much.

Tha Harry Livingstone insanity and a few matters relating to it are what made this not as good a day as I'd have liked. If you are interested I'll tell you about it when you are here. Aside from several unpleasant developments the assistant state's attorney with whom I had an appointment was suddenly taken ill.

I don't know how the monser can have found time to rite a book with all the letters of denunciation and threats that he rote from the number I've been able to get.

As best a layman who has no knowledge of precedents and interpretations can tell, he has violated the Maryland code, everal provisions of one article.

If he is before a judge he might be lucky enough to be sentenced to treatment, which he so urgently needs.

Too bad his publisher made so mich on his other books and the other trash like them. The love of money is the root of (musch if not) all evil and he'll be tempted by that kind of profit. I understand that his royalties as of the last payment came to about \$180,000.00 for High Trash 2 alone.

Their counsel is a friend so he can't say anything to me. But when I get what I think he should have I send him copies. Today it was records that include the lies that his publisher is going to prosecute those Harry accuses of conspiring against him, including me, and that his publisher's lawyer "required" him to go to the FBI about what he said was happening to him.

I've eten gotten a letter he wrote in which he says the Republican Party condonned the JFK assassination and that it was "perpetrated" by the radical Right Republicans!

It seems in with able that this will come transing around him. One can only wonder what his reaction will be then.

Again our thanks,
