Dear Harold:

Before I forget, I am getting the Defense Monitor regularly. Thank you and Lil!

Betsy made up this package for you all. The video follows the pictures. It is about an hour, be sure to turn up the sound to here my running commentary. You will get to see the entire Pearl Harbor tour. When you finish, put it back in the box and mail it to my former secretary in Florida. Tape it shut. Thanks.

Another review of Posner my father in law sent me. I think the various legit researchers perhaps should have been more aggressive in writing reviews. I think his book must be pretty convincing if you know nothing.

I enclose a check for an autographed copy of Whitewash and Whitewash II. Please send direct to my friend who has helped me with optical scanning and my visits after I am at UK's library. Address follows.

My copier is going to the shop. After that more copies.

I am halfway through Roffman's book. Although I see your hand behind it, he is very good. He is silly not to do an update and republish it.

When you get the time, tell me the story behind Hurt and his book, "Reasonable Doubt". I think you started to tell me you had helped him and then he writes about the loony in the asylum, but we got interrupted.

Thanks and I hope you enjoy the pics and video, Bill

Send Whitewash & Whitewash^{II}, autographed please, to:
