

Dear Bill,

12/9/93

Having to do some shopping, we lunched at Hana's and got the mail when home. Along with your 12/5 a number of letters. So I'm letting work slide to answer yours and one other. I just discovered last night that what I've been sent of once Hoax, now Case Opened, doesn't include quite a few of the last chapters! But in a day or a little more I'll have finished with what was retyped that was sent. If they get on the bill after my call this morning I should have the rest next week. I'm assuming it has been retyped! I've been bedding a little earlier and getting a little more sleep when as usual I'm up at the same time as before.

Thanks for cuing <sup>R</sup>ookstool in. When I finish ~~the~~ the retyped copy I have I'll probably take the time for it before doing other work that waits.

When Lil read your letter she said we'd better have you look at the will. <sup>†</sup>It was prepared by the former college lawyer. Maybe there was a reason they got rid of him. I'll have to read it again, too. I recall one thing in it was not as it as supposed to be so I wrote what we intended and put that with the will. <sup>†</sup>It has been registered. It should have been in my mind, I suppose, but wasn't.

From the lack of reflected reaction I suspect the TV specials did poorly. The people have bellies full of what they do not believe and will not. This is why I think that despite all the hype the sale of the Psoner book disappoints the publisher. The ancillary sales were fantastic.

Thanks and our best to you both,

Harold
