Harold Weisberg

Dear Harold:

Glad you liked the oranges. I had wondered if they had come yet. I include a copy of the book review I submitted to the Courier Journal. A Gannett newspaper, I was hoping if they pick it up they might rerun it in USA Today. However, Keith Runyon, the book review editor and a former law school classmate-I'm sure he doesn't remember- is also probably the one responsible for running the Carlos Marcello editorial a few months ago that said since Carlos is dead, we'll never know the truth about JFK's death, since he did it! Apparently they base this nugget of truth on a PBS documentary with Frank Ragano. Talk about a little knowledge being a dangerous thing.

Yes, I would like to look at the tape JFK: The Investigations. I'll be glad to let you know if it is any good. Send it and I'll return it soon.

You included a note in your last letter if I knew of a radio show that might be interested in an interview. Joe Elliott of WHAS 840 did a show about two years ago with Burt Griffin, Jim Marrs, and Jim Moore of Oswald did it fame. His show is 9pm-12pm. It is a 50,000 watt radio station. To let you know how much pull we have, my brother found out his remote 2 hour Daytona 500 racing show was cut to 30 minutes, about an hour before the show! If you want, I could write a letter to Elliott. But would you be awake that time? Having the 26 volumes has really helped me to get a grasp on the subject. I just look up your cites. Love to Lil, hope that snow melts. It is 45 and sunny here!

Bill
