

Dear Bill,

4/20/94

Both of your 4/18 letters came today. Lil is checking her records so I can tell you when we sent those WIIIs. I think I then wrote you about them. *Did.*

On the possibility of a bug or bugs being planted, I've not touched the TV but if and when Lil says she'd like it turned to face her more, I'll put some gloves on and do that, gloves in the remote event someone with some expertise comes. I do not dare do more than turn it by sliding the set and it is not only a medical nono for me to lift it, I doubt that I now can. There is always the possibility that when I was not looking or not present some who was here twisted the set. I have no way of knowing. I'm more inclined to believe that the switching of the channels on my cordless office phone may indicate something because I do not know how to do that. I got the phone because of the speaker phone and I've never used the handset on it of the identical one in the living room. I need that extra amplification.

I have never searched for bugs and have only rarely bothered <sup>d</sup>to leave what could tell me of a search. Of the latter, I remember two only, one in N.O. and once in Jacksonville Don't want to live that way. Our locks are simple and we have no dead bolts on any doors. In each of the two instance above what I was carrying that I left in the motel room was moved. Moreover, discovering a bug does not identify who had that improper interest. If that did happen here recently I am inclined to think it is more likely related to my recent writing than to my recent high <sup>at</sup> than usual profile.

I enclose a copy of the insurance receipt for those WIIIs we did insure. I think you have to raise the matter with your P.O. first. Reminds me, the PO is required to look for an address inside and Hyattstown, MD would not reach me. I'll have to start stamping them, I fear. Although what you report is now extremely rare.

The scotch tape on some envelopes is because years ago we got a batch of flimsies and for more than a few pages the tape is required to keep them together. I used it.

That LBJ conversation with Clark was I'm sure in 1967 and Johnson knew very well that he <sup>was</sup> spoofing Clark. What he knew he got from the FBI and it related to the mafia plot favor the CIA did for Sam Giancana when the bugger got caught in Vegas. I have the file of the FBI on that and the DeLoach memo to JEB on what <sup>Marvin</sup> Watson told him. Watson quoted LBJ as believing there had been a conspiracy and that the CIA was part of it. The Pearson part ~~is~~ is separate. I believe he did not speak to LBJ about it. He spoke to Warren who referred him to <sup>Rowley</sup> Warren who referred him ~~the~~ to the FBI. Which then had the former SA Hoover detested, Morgan, questioned. I have a file on that. Morgan represented one of more of those mafia guys and clearly had been told to speak to <sup>a</sup> Person.

Goodwin understated. It is not only that RPK was never shown <sup>N</sup>to have been involved. The CIA's internal investigation said he did not even know about it. I have that, too.

McKnight has the Cooper oral history for the Russell archive.

I think the Tenn. judge who granted Ray the hearing did that to prove that his present lawyers are publishing crap to embarrass the state. "Which I am certain of and to them themselves in the papers. What I've seen of this recent stuff has no credibility at all. The more of this Ray's Lawyer pull, the deeper they bury him.

I presume the oral histories Herritt read made no reference to Cooper and the single-bullet theory.

The clippings were interesting. The truth is that FDR could have saved many, many thousands of Jews and refuse to. Even when a shipload of them reaches our shores. Also true of thousands of Jewish children gathered in southern, Vichy France. No country would admit them and they were all killed. The book referred to is excellent. I read it years ago.

Please let me know if you've gotten your copy of Case Open from C & G. My supply did not come until yesterday. If they did not send you one I will, as I'd planned, but it took so long to get these I want not to run out.

Our best to you both,

Harold
