Dear Harold:

Where did the first half of 1994 go? I am only up to about May!

I received the copies of WWII. Check enclosed.

I enclose copies of articles from Playboy and Penthouse June 1994 on Ollie North and Jon Pollard. I feel that you should get an article published in one of these. Like you need any more of my advice.

I would have sent you the complete magazines, but it appears both are using models who, in my professional opinion, are industrial users of silicone breast implants. So, what is the point? Plus, I didn't want to get Lil mad at me.

I thought of Lil the other day when I saw a news program on women who flew planes for the military in World War II. They flew them all, including B-29's and P-51's. The big ones and the fast ones. The women said they never got much publicity, because they didn't want the Krauts and Japanese to know we were so desperate that we were using girls! Such is the fate of the pioneers.

I am listening to Rush Limbaugh-know your enemy- and Bob Dole just came on. My blood pressure just went up 20 points.

The name "The Complete Whitewash" is in the database of the computer and cannot be changed by a bookstore. Check with your publisher or their distributor.

Compuserve is a computer bulletin board and I recently put into it advice for those interested in JFK to read Selections and Case Open. In browsing through it, I saw your name come up in a discussion of the single bullet theory, and Dave Wrone's in a comment on his bibliography. So if someone looks up what is available he will find your books.

Betsy is to be published in an article on the needlework piece I sent you. I will send you some more magazines on Jackie Kennedy, but Betsy threw away my front page articles in the Chicago Trib. I also have some especially hateful articles on Richard Nixon I think you will enjoy.

I shall write soon.

Bill
