Dear Harold:

I have been unable to find out what magazine the article on the Aurora superplane was in. My brother John says a pilot gave it to him, but the article does not say what that is, I do know the Wall Street Journal ran a similar article a few months ago but regrettably I did not keep it.

If you know someone who has Compuserve, which I do not, they may be able to find out. Have them look under Aurora.

On a better note, Jane Norris wrote me the enclosed letter and indicated an interest in having you on her show. I will furnish her your address and phone number and give her instructions to call you early in the day, since you go to bed early. I am going to be gone the first 2 1/2 weeks of November, although I should be home the Nov. 20. Betsy and I are taking our fathers to Key West for some fishing. I don't know if I am a better fishing guide than lawyer, but we shall find out. My navigation seems to make people nervous, in the Keys I have to run about 6 miles in 2 foot deep water to get to the fish. Once I got the boat so high out of the water running aground that Dad and I both to get out of the boat and it still barely floated. Good thing I bought an indestructible boat.

I am expecting a bloodbath for the Democratic party in the November election. I feel the Rush Limbaugh show and others have given all politics a bad reputation, and the voters are going to take it out on the Democrats. Natcher's old seat is held by a religious bookstore owner, and Mazzoli's seat is up for grabs, and it looks like the Republican woman is ahead there. Counting Chris Perkins seat, he held Carl's seat for a few years, his dad, which we lost in redistricting, so we lost a Democrat spot and now have only 6 congressional seats, Kentucky could end up with 3 less Democrats than a few years ago. Clinton never was all that popular, and even that idiot Paul Harvey today repeated the myths of the Jerry Falwell sold attack tape that accuses Clinton of murder, cocaine smuggling, etc. He quoted Rep. Phil Crane as saying these charges should be investigated. Like Clinton is bumping off rival coke dealers. Sort of "more mysterious deaths", like the JFK assassination. I had forgotten how much I despised the Republican party. All it took was an election to make me remember!

I actually have to get back to work. Might even have some cases on which I can make a living. That would be something different. Say HI to Lil and maybe I can come up there late this fall.

Bill
