

Dear Bill,

11/4/94

The Arafat cartoon with your 10/31 is great, the Perry is incredible, and as soon as I came to Barboursville I realized that NEVER AGAIN was from the Corbin paper. Thanks, and for the corrections, too. I'll get to them. Hope I was sharp enough to pick them up.

I've not heard from Norris, whose mind seems to be geared to anniversaries and the crap usually heard and seen Otherwise, with a current book, ^{and controversy,} she'd not look so far ahead.

You'll miss a good one missing Kearns, I think, from her writing as I remember it. Ditto for her husband.

As you'll see, I thought you had started for warm water.

And I hope you are not persona non grata to your appeals court.

I remember that cock fighting used to be a ^{big} good thing in Ky. And around here, too. A case in court near here not long ago, either.

Used to be in Delaware when I lived there, long ago.

But then they still had the whipping post there. In the open, visible from the side ~~or~~ road on which the workhouse was and people could walk right up to be close to the lashings.

I'll hold this and more, the next chapters already in a Priority envelope, for a couple of weeks.

Hope it is all good, safe fun.

Best,
