

Dear Bill,

11/25/94.

I think it that despite the hurricane you had a good vacation. I think that in addition to that ^{right} ~~line~~ line Betsy had another, possibly by hypnosis.

I do not remember what I said on WHAS other than I ^a ~~made~~ reference to the Cooper archive and your trying to improve it and by arrangement with the producer was prepared to and did read that letter and part of the oral history. Of course there has not been time but I've not heard from the show, from anyone who heard it, that is.

You are right. I saw and heard no ~~ref~~ ref. to the 31st anniv.

I've not read the Califano book. Do you think it is worth the time? Is he not an LBJ apologist? I know enough about the good things he did. It is what was not good that ruined his rep. and started the country going that way again.

I'll change the ribbon tomorrow. Too late in the day for me now. Got tired and knocked off writing just before supper.

Enclosures interesting. Great cartoon "That ^{of} Hitler story is old. I published it in 1972.

What did you do with that barracuda? If you threw it away I hope not before taking a picture. There is Channel 9 in Washington that has a big fish segment on sports once a week. They would love that story!

I can tell Lil HI! but she can't tell me. She lost her voice again, as she has from time to time for several ^{decades} decades. Doctors found no cause of treatment. This one is lasting a little longer. She is also overly tired. She decided to have a real Thanksgiving. Anticipating that she might without thinking of how much too much that would be I earlier suggested that she broil a fryer on an excellent vertical broiler we had that did not succeed for Sunbeam. Which gave it to her. Does a marvellous job. But she got a turkey and it was her usual fine meal when she gets to one but she could barely stagger when she finished cleaning up. With many TV dinners in the freezer.

I couldn't help her because even without standing my feet now swell and burn. Seem to relate to how long I've been up and around.

I'm ^{IN 6} ~~continuen~~ writing on the book I'm ⁴ ~~kaking~~ of Senator Russell Dissents. I think that by now I've ~~de~~ added more than 80,000 words. More than 225 pp of this typing. I'm doing a long CIA segment I think you'll enjoy.

While I've done few radio shows lately Norris impresses me as one of the better hosts/hostesses. She was quite fair to me. Maybe by the time this reaches you you'll have had some comment or reaction. My first time that I recall on KY radio other than possibly in syndication.

I learned from an old friend that the nuts at COPA who said that Henry Gaff on the ARRB was for disclosure, for us, had it 100% backward. I've had no response. Another friend is sending me the right name and the full address and I'm going to try to raise that before the full ARRB. What his failure to respond represents and say he should quit.

D. J. H. 11/25/94
