Dear Harold:

Note page 14, back side of Mad Bomber article, has an article about the JFK Conspiracy Museum. Also, short article about Nazi Tourism Bureau and movie that made no money, despite selling hundreds of million of tickets.

Oswald's Tale review is only one I have seen in NYTimes. Very short.

I thought you would like to see the Terry Nichols article. Guess what, he is a reader of Spotlight.

Things have been quiet here. Betsy was thrilled to get the book. I guess she didn't think I had the power to do this. Remember, since she only met you one week, she just has not seen you all as often. And would like to see you again, if we can fit it in some time.

Still reading Never Again! Reads pretty good. Under the gun to get some reviews out. I don't see how you have the energy to do all you do. Must be clean living.

Kind of liked the Ed Rollins controversy. For a political consultant, he seems to insult a lot of people. First blacks, then Jews. Guess a leopard can't change his spots.

My mom always told me if you can't be normal, you can at least act normal! Good advice for Rollins, the asshole.

My latest project is to get the pool going. Really been too cold. But getting warm now. Birdwatching has been good. Saw a goldfinch, first in months. Seem to come and go. Also, rufous sided towhee, prothonotary warbler, indigo bunting-first in 11 years- and I think I also saw an American redstart, not confirmed, black bird with safety orange wingbars, but did not see long enough to confirm.

Went to Indy 500, decided the cars go too fast for me to drive! Better to drink beer and watch. Sort of American capitalism run amock.

Guess I better go back to work. Take care, say HI to Lil.

Waiting to win the Lottery or at least the Belmont, I remain
