

Dear Bill,

5/31/95

Glad Dick is doing as is usual from my experience. I presume he was given all the cautions as by accident I was not. One is how not ^{of} use the arms with any exertion if they are spread. As in opening a tight door. Keep the arm close to the body then.

The new reports I've gotten on NEVER AGAIN! are fine. But I've gotten more on it not being available, two more in yesterday's mail

I think Lil did stypically slip up on the order. She'll now take care of it.

On Cooper, ^{the article} the day I got the disk on it I also got xeroxes of it. I'll send you a copy of it when I catch up a bit. It is in that.

I have both Times' reviews of Mailer. And many parades.

I have no reason to expect any pr from the publisher. I can't get either the promised return of the pictures or the books I've asked for after many efforts. I hope you make a record of the types and give them to me so I can post them if there is a reprint.

I doubt I'll hear any more from Bookstool. He is the Dallas office's JFK assassination expert. He does socialize with some of the people down there. *Not an SA.*

It should not have been the coffee that kept you awake!

I like your goal for me. But right now I'll settle for out August wedding anniversary and then I'll target our April birthdays.

I did not have only Betsy in the book. I had you but they cut that.

I do appreciate those stamps. That the Loves are almost gone reminds me of how many of them I use. If you know of anyone who wants the NEVER AGAIN! Index ask them to please send an SASE with three stamps for being folded into a smaller envelope and four if they use manilla so it will be flat. I need to save all the time and effort I can. But the Nixons I can forgo!

On the Simpson trial it does look convincing but from the first, with so much wrong that duplicated the JFK mistakes I have to be persuaded the police did not rig it.

Now I gotta get ready to go to the dentist.

Best to you all,

Harold
