

THE

# TOP TEN REASONS

WHY YOU SHOULD GET WELL

10. Because being sick is hazardous to your health.
9. With you out of commission, the Gross National Product is plummeting.
8. Because it's no fun lying around in bed by yourself.
7. Nobody will join you in bed, because they think you are a Gross National Product.
6. Because the Mall Workers of America really miss you.
5. Daytime television.
4. Because things just aren't the same without you.
3. Because nobody knows you when you're down and out. (What was your name again?)
2. Because wellness is in this year.

And the #1 reason  
why you should get well...

Hope you get feeling better very  
soon. Looking forward to  
visiting with you this Spring.

Betsy

...because  
you're too nice  
to be sick!

GET WELL  
SOON!

Betsy
