Louisville, KY 40222

Dear both,

Our hasty thanks for the great citrus! We do appreciate it very much. There is so much difference when the fruit is allowed to ripen!

Haste because I'm about to leave for some walking. Snowed in this morning and I've missed some of it recently from snow and from medical appointments.

Including yesterday when I had a barium enema.

Blood in the stools. I hope it is no more than a polyp to be removed. But for that I have to be hospitalized, or should be, and that means for a while I'll miss the walking.

We do appreciate your thoughtfulness and the fine gift very much!

Our best,

Harold Weisberg
