Dear Harold:

I am not a member of the ABA, having let my membership lapse as it is not mandatory, I am going to rejoin to get their computer software, so I will get backcopies of anything relevant. I'll see what I can find out about Failure Associates. We had a computer reenactment company at the KBA, but I don't remember the name. I'll find out. These computer deals are sometimes admissible as evidence to tell the one side of the story, like charts. But with people believing TV like the Bible, they are subject to misuse, as ABC shows.

Another review of your favorite book.

In going through my files, I found a 1986 article about my mob. Dad bought Miles Park from them. Local concert hall still uses them for concessions, and I parked at an APCOA lot managed by them in Maui, Hawaii! Their tentacles our everywhere, but they are quiet, businesslike. Forbes 400 richest used to refer to them as "rumors of links to organized crime," but now are more tactful, say old man Jacobs was "the Godfather of Concessions". Indeed! So when I tell you I know a little about the Mafia, I do. Can't imagine any Mafiosi, especially Carlos Marcello, telling Becker or any other oil additive salesman like him, that they were going to kill anyone, let alone JFK. Delaware North used so many go-betweens in sale of Miles Park, nobody knew whole story. They later sold Jai Alai frontons in Florida to president of Textron, but there was some unpleasantness, and he was killed at his golf club, no witnesses.

Also enclosed interview with Oliver Stone. Odd. He blew a chance to make history, should have sat at your feet and learned something.

Bill
