

Dear Bill,

9/30/93

If I remember correctly, this is the weekend you leave that rare beauty some of which we've enjoyed from those beautiful cards. Black Sand! Never heard of it anywhere! So, later today I'll be making up a package with the cassette to return to you in tomorrow's mail, in which I'll include this.

My Posner book will be published early next year. I've most of it in rough draft. But the ^(Failure Analysis) people who made that The Trial of Lee Harvey Oswald presentation to the ABA refuse to respond. Not to me only. So, I'll have to address that from what was published. Their attitude surprises me but I have to live with it.

I do not know if you are a member of the ABA or get its Journal or any other legal publications that may have mentioned The Trial or whether you know anyone who has or can get anything like that but I write in the hope that you can find some of that. Nothing was in the papers I ^{see} ~~est~~ then or since.

Best to you both,

So, I was off by a week! Congrats on that Cooper

letter. OK if I add it ^{as a} ~~see~~ note in NEVER AGAIN!? The double spacing is because I took from the typewriter what I think is the last page of Chapter XIX of HOAX! My Posner book that is to be published in April. Please do not talk about it so I won't have to respond to pointless questions about it. More when I can. Rushing to get all I can done ^{as} ~~as~~ fast as I can. ... I can only conjecture on Katzenbach. I suppose the most obvious explanation is that the government had to cover it all up, wipe it all out, for stability and tranquility, but I do not regard that as an adequate explanation and it is, I think, opposed to all traditional American belief. Welcome back to the salt mines!
