October 12, 1993

Dear Harold:

I'm sitting here waiting for the copy repairmen. I need to make a lot of copies for you and Bill Cooper, but I'm not happy with the quality.

Glad you liked the pictures, and Lil liked her gift. I'm also sending the pics of Wrone and the guys to them, I think they will get a kick out of them.

I did send you the Chicago Trib article. I have had amazing luck with seeing articles about Posner, in papers I don't get to read that often. Since Betsy is from Chicago, we buy their paper some. I also sent you the San Francisco one. I'll see what I can find out about Posner in the county law library. Don't think they keep old ones, but we'll find out. I also wonder about that Posner pro bono Mengele story. He has done the most amazing job of selling that book. I refuse to buy it, so I read it in the bookstore. It is interesting the refuting the "MYSTERIOUS DEATHS". I think this is an example of how bad research brings the real research into disrepute. He can come up with a lot of examples of false claims, such as Jim Garrison.

I am hopeful that Harry Merritt does a good job with the Sen. Cooper bio. Cooper had an unusual career, and he at least appears to be doing real research at UK.

Glad I made the book! I told Betsy that I didn't care if she got all the attention, the CIA probably had her on their list anyway because her late mother was an IRA supporter. I think her Irish relatives migrated here with a price on their heads. A long line of troublemakers, and don't ever make any disparaging remarks about Notre Dame to them.

It was funny when your family gave me the third degree. When a Weisberg gives you the third degree, you've been grilled! I did think it was weird when Robert Oswald on ABC said Lee was such a great shot. Talk about a grave dancer.

Recent sex harassment FBI case interesting, because the woman FBI agent described an FBI like you do. Your books are a picture window into the FBI.

If you have an index to WWII, I'd like to have one. I'm sending the Oswald in New Orleans index to Bill Cooper, also. Bill has been the most open minded guy, I told him when I die I'll will my 26 volume set to the Archive, the library has one but Cooper's copy never made it to the Archive.

If Arafat and Israel can make peace, maybe we all should be optimists!

Shalom,
