Dear Harold:

Thanks for the Nov. 22 Wash. Post article. I'll try to send you a complete set back for your files.

On the CBS documentary, N. Katzenbach was asked by Dan Rather about the memo. He said it could have been more artfully drafted! Rookstool is on the CBS documentary. I am going to make you a complete copy of the PBS one, but on the CBS one, do you want the whole thing, or just the Rookstool part? Perhaps it is best if I make you a complete CBS one, but cue it up so you can see Rookstool without looking the whole thing over. They'll be extras you can keep.

I'll do it.

Last night I heard LBJ ask Sen. Cooper to be on the Warren Commission! They have just released the audio tapes of the phone conversation. On Nightline. I did not tape it, but I am going to get the transcript and probably buy the tape. Jack Valenti was almost choked hearing the tapes. Said it brought back a lot of memories. Valenti said LBJ thought it was a conspiracy, but perhaps a Cuban one.

Thanks for the other articles. Klotz and Payne are interesting. I guess you have been reading Doonesbury, the Duke he is always kidding is Hunter Thompson, a writer from Louisville.

Having trouble finding Newman's book, but I'll get it.

Did you say did I want an extra copy of a Livingstone book or something? the answer is Yes if that is what you meant.

Gotta go back to work, love to Lil.

Bill
