

Dear Will,

12/4/93

This particular rush is because I'm behind on reading the retyped ms. that was Hoax and has been retitled Case ~~Un~~closed, or Opened, I've forgotten ~~which~~ which. Lost most of Monday and yesterday being driven to Johns Hopkins, where I was twice told I'm holding my own. I hope they are right! <sup>p</sup>And a days work in today's mail.

Hold off on sending me the CBS show. I think someone said he would. Thanks for that and the others, though. I appreciate your cueing it to Rookstoll. <sup>CBS</sup>Never saw him. He wrote me like a devoted fan. He may even be inside his official closet.

We are having to backorder Oswald in NO. I hope to be able to arrange for copies to be made this coming week. That kind of binding can't now be done locally and the problem is finding a suitable one. *we'll hold off until then.*

If without ~~me~~ any real trouble you can get transcripts of the shows, they could be more useful. Some are supposed to me in the mail to me so take no time at least for a while until I see if I get them.

Dave had all 600 pages of the disclosed LBJ phone transcripts. The one I heard on ABC-TV I could not understand a word of! *Howe + LBJ*

Newman's <sup>book</sup> is absolutely masterful! I've read almost half- since Thanksgiving! If you cannot find one most stores can order it. Warner Books.

The extra copy is of the rough, and I mean very rough, Hoax. Almost complete. I can send it when I finish the reading in the event I have to consult it. Under the circumstance the grandmother who did the retyping was magnificent. She had some trouble but she reflects ever so much less than I'd expected. But it is ~~taking~~ taking time!

Every <sup>one</sup> of those beautiful organ ~~oranges~~ oranges was as great as each looked. So far, true also of the grapefruit, now also almost gone. What a difference when ~~some~~ people go to the time and trouble to have real quality! That is what we did with chickens, and got the face-to-face reactions. I think that perhaps more than ever those living near large cities and wanting to farm can make a fine and a worthwhile living that ~~way~~ way if they are suited to personal marketing and do get the top quality in their product. You'd be surprised <sup>e</sup> at the bigshots, really important people, who accepted their poultry in their offices and carried it home.

Again thanks and our best to you both,

*Harold*
