

Dear Bill,

1/31/94

We did get the wills out some time ago and discussed them. Copies enclosed.

We discussed them again this morning. I enclose copies of an old version of part of one Lil had some years ago marked in red for provisions I want to call to your attention to be certain that such provisions are in the current one. With one exception. Where I used the red on no embalming, that was to remove it.

We would also like the form to use to file an amendment for what we add, including you and Dave as additional executors.

There may well be money remaining after all expenses are paid. We want that divided so that 2/3 goes to Richard and Catherine Barbehenn, whose ^{addresses} ~~address~~ need correcting and of the remaining third, two parts to go to Dave Wrone and one to McKnight.

I also want a provision in mine like in Lil's saying that I knowingly do not include relatives because they, sisters, husband and children, have no beeds.

The Barbehenn address is 701 Overbrook Rd. Towson, Md. 21212. (Baltimore suburb)

I want a provision for me of the simplest possible funeral, including casket.

We have all the prerequisites paid for at ^NReshave, including concrete vault. It is northwest of Frederick, near Thurmont.

There have again been too many interruptions. If you have any suggestions, please do make them, or ask any questions.

Now Lil is again after me to fill something out for Who's Who that I've paid no attention to for a long time because it means nothing to me compared to what else I've been doing.

Thanks and best, 2/5/94
