

Dear Bill,

6/17/94

I kept this hour free for one of the two only talk shows that Carroll & Graf arranged for me for Case Open and the stations did not call. The other one was in Eugene Oregon and that one did call. This one was the Pacifica station in Washington. Rather radical black-oriented as of my last information about it.

It is pretty clear that Gallen is not going to publish NEVER AGAIN! in September. To do that he'd have to have review copies available next month and there is no indication of anything at all being done to prepare the book. That is why I wrote him as I did. It makes a clear record. When my asking him angered him, or at least so he said, he still did not respond. And his reason for his anger as he gave it is not true, as I tried to make clear in making what I hope is a clear record. But a reason for complaint, and I asked for correction, and that is not a complaint, is that the computers still direct the book stores away from me for ^wWhitewash, which I refused to have reprinted. The book was never one to justify "The Complete Whitewash" title, and that was what I did not describe it as, attempted robbery. I suspect he is put out about that but that was just plain dishonest. And I did correct it before then sent me proofs to read. Well before then, And because they did nothing then they had to ^hchange the title at the top of every other page. Just the announcement, which was kept secret from me, aside from the losses in sale, and that means to me denying people who wanted that information access to it, it meant I have to write many letters, correcting it. I hope you can get that book store to correct its computer. That kind of thing ought never happen and what it required was burdensome for Lil and me and insofar as it remains in the computer hurts us and what I've been trying to do. I see that was a Chicago bookstore but perhaps when you are there again you can get them to correct their computer listing. You also say it was in your recollection "one of the proposed titles." Not so! Never agreed to. They have consulted me on nothing except sending me proofs and then they did not use the corrections in Case Open.

Surprised that People did an entire issue on Jackie. Glad to have it for file. Thanks. And I'd like to see what Dershowitz says about Pollard, who got the worst of all sentences, and the artifice on North.

Beautiful embroidery work! And no matter how normal it is, it is not possible to adjust to the partisanship and dishonesty of the papers in their reviews. Or the mags in ^{what} they will and will not publish. I've not yet heard from the NY Review and I did write and ask about 2 weeks ago. But I do continue to hear that people like Case Open and almost all the letters thank me for doing it. None today for the first time I can remember. Our experience with the Courier-Journal is what I've been loving with for 30 years.

Our thanks and best to you both,

Those are great Lincoln stories. I suppose you sent a copy to Wrone, who might be able to raise some.
