

Dear Bill,

7/6/94

We both enjoyed your 7/1. Lil laughed at some, as I also did.

Last week Dave Wrono was here, this past weeked Gerry was. We were glad to see and to speak to both. Dave is really overloaded and having gotten a sabbatical the univeristy has him teaching summer school to reduces its value to him and what he can do with it.

Without the skin, glad to have the two very good articles. I'll send them to Dave of ~~live~~ them to Jerry. It happens that just before reading the indictment of Inman I had read Schlesinger on the spooks in his book on Robert Kennedy. That made it mean even more because it becomes clear that the greatest successes of the spooks are when they fail.

What you say about women pilots in WWII is true, whether or not the reasons for the little attention they got are. I think there was a big case os sexism, too.

I am a little familiar with Compuserve but having no computer am not in it.

Thanks for the plug on it. Lifton used to be heavy on it, from what was sent me ~~to~~ long ago.

Only those who take too literally speak only well of the dead or ^huntinking partisans can write other than hateful articles about Nixon because no other kind is at all justified. ~~He~~ is an outstanding example of the success od evil.

We both admired the picture of the needlework you sent and will like to ^see what Betsy says about it. Lil use to do fine cricketing but now cannot.

And I remember some my mother used to do in the 1910s that perhaps when we are togther again may interest Betsy. I think it is no longer done and what was needed to do it has not been on the market for years.

Thanks and best to you both,

Harold
