

Dear Bill,

8/11/94

Late getting to the mail, including yours of the 9th, with the stamps, thanks, because the English major, I think Harvard, who is the travelling secretary of the Boston Red Sox was here. Nice guy, very interested in the assassination, He says he'll be back tomorrow. The first day of the strike. Maybe!

The advice you give me on G & G is very practical but it means nothing now because as they have not answered in the past they won't again and I have March in writing from Gallen.

Sure they could have made more with Case Open, especially as a complete hardback but they have their own crazy notions and they will not learn from their mistakes. They never do. And always repeat them. If I make demands their backs will get up and they'll do or promise nothing because they know I can do nothing but if I do not shame them they may come to realize what they lost with Case Open. If publishers ever do. Realize, that is. Most business people would probably believe that if the book was doing well without any ad, maybe an ad would more than pay for itself. But they did not.

They did send out an announcement but nothing else I know of and they did not even send me that.

Chip is no longer with Unsolved Mysteries and it with a new NBC show if the pilot was accepted. He is no longer doing any work on the assassination. At least for a while. His address is 4247 Dixie Canton Ave., #201, Sherman Oaks, CA 91423.

Despite the massive size of it, I heard some time ago that the CIA LHO 201 file had been gutted. I have not only not heard from Newman recently, I wrote earlier today to ask him to return what he borrowed last November.

What you say about your practise sounds like a movie!

John Y. Brown Sr. was one of the outside lawyers the Harlan people hired for the federal Bloody Harlan case, US v Mary Helen et al. Of the jury fixers.

Check on the will. Thanks.

Five Case Open letters in today's mail. Takes time.

Best,
