

Dear Bill,

3/23/95

Reur 3/21, now that I've increased what I can do on the UBE to more than the 20 minutes the P.T.ists said was enough I do 20 minutes. Beginning only after they get there. Suppoaedly but not usually # at 8. Then I'm supposed to sit for a few minutes and then it is 25 minutes home. So I'll be a little later than 8:30 on the 7th.

I think the "ed Horse has th Wash. Post you can get and their more than adequate little coffee shop opens at 7, so if you'd like you can breakfast to the paper while you are waiting for me.

For the xeroxing I should you should first check the file folders in my subject file. Also the blue folder on my desk organizer. McKnight put a good selection together to use as a manual in his course but I do not know if there is a disassembled set of them for copying. He'll know.

I haven't napped much of latz but thanks, I'll feel free. and as of now the only medical appointments are the morning ones Monday, Wednesday and Friday.

I believe that all going to Hood is in the will. The understanding that they will seal the books is verbal, first with the president when they accepted what we offered and then after you were here with the vice president/dean of academic affairs. They have probably talked it over because Jerry says the ~~lib~~ book store will handle that. If there are any royalties in the future they would automatically go to Hood. Except ~~of~~ for the time it takes to make packages if Hood follows what we have done it will all be profit other than the annual add in Books in Print, which we pay for. I've already told them than on my original printings they should not stick to the cover price as we have done.

I've a local copier who is doing 0 in NO for less than those who did it earlier. We may get you to take the masters to him for him to make more copies while we are able to use you as a go fer. After an invesntory, which we'll thanks you for. So they can keep the book available at a not unreasonable price without a regular printing if they do not want to <sup>have</sup> ~~have~~ a larg stock on hand.

You may be eating lunch earlier when you are here because I should have supper not much after 4 so I won't have the content of the belly to take blood from elsewhere when I go to sleep. We usually have only a sandwich for supper. But the last time we were at the Red Horse restaurant, a separate building, the food was quite good. As it is besides at Ana's, at nearby Dutch's daughter. One day when you are here you should try their crab cakes.

When I can, as best one can without Court TV dn cable, I try to keep up with the Simpson case with the 4 p.m. news and when I have breakfast about 4 a.m.

If you have any names you want to ~~check~~ check, make a list of them and I'll tell you how to use the Dallas index for them. Best to you both,

*Frank*
