Dear Bill,

When Lil completes the return she is now working on the pressure will be off.

The others have extensions.

Glad Dick is improving rapidly.

But be sure he has been told how to avoid the hernia I got. As I was not by accident.

Thanks for the letters I take it are from USA Today.

Hope you can remember to source and date all as you do most. I intend to cite those letters in an addition to Waketh on McNamara.

Believe it or not when I awakened the temperature was 30, below freezing. But fortunately no frost. Not that we'll harvest any fruit from the trees I have not been able to care for for so long.

Best,
h
