Er. Gerl W. Bolcher, Chief General Grimes Section Griminal Division Department of Justice Washington, D.G.

Dear Mr. Belcher.

If you were a judge rather than an attorney, would you say the record is consistent with the content and tone of your latter of March 25 to me or inconsistent, that you have been open with me, that through you the government has been responsive?

I saked of you cartein meterial to which I believe I am entitled. I saked questions the chavers to which had been premised in the previous edministration. I beliegee, without benefit of a Law degree, that the meterial I seek is genrenteed me by the law you are supposed to be uphelding.

And there has not bern even the pro forms denial that might have been expected to the report that agents of the FBI had defende me.

I saked for the promised further word on the suppressed David Ferrie documents. With his docth so long ego, there is hardly justification for withholding this information on the ground it would denoge him lend he has no heir, hoving been uncerried and shildless). I remind you that I have part of this file, despite its restriction, and that what I have does not qualify for withholding. I report my previous request for this material or for an explanation of its being demied mas

On Morch 31 I asked for the evidence presented in court in Bagland in the mass of James Barl Ney. New it would seem that that was presented in open court is public, that you have copies of it, having presented it, and that there should be no problem in providing copies to me. I asked for permission to read the transcripts of the court proceeding. Are you classifying this as "secret"?

It is now a month since I requested copies of or access to the statements and questions of Department of Justice atternays in Judge Hallock's court the afternoon of the hearing on the pictures and Z-rays and copies of the submequent motions and the affidevits them filed. Certainly this, whet your department presented in open court, is not restricted. Con it be that the government does not want its side included in a book about the matter? In any event, I want to include it, for I do want to present both sides - not eliminate one, as the government did, I do hope the new administration will not fellow the restrictive precises of its preference, and that the inordinate delay that in itself is an interference with a free press will boatime.

Sincerely,
