

Dear Jim,

11/10/77

The Supplement to Plaintiff's Motion for Reconsiderations strikes me as being good. I had not known of the Smith exhibits although I knew generally about his efforts.

One confirms that the FBI had the NAAs but if we got them from ERDA as I believe we did not get them from the FBI because we received one set only. Note that there has been no disputing of this in my affidavits.

Although it is now academic we have just received new records relating to Exhibits 4 and 5.

Page 2 of Exhibit 6 refers to what was not provided under my PA request. Last two words next to bottom line, "public appearances."

There were no such texts in what I received. The one long account I recall noted I was not unfavorable to the FBI on that appearance.

We have an important element here, that they can refuse to apply FOIA if they do not like what an applicant writes, says or believes. Same point in this record, by Williams.

I doubt you'll be able to use it but we also now have new information on the change in regulations. It is in the recent Archives records.
