Rt. 12, Frederick, Nd. 21701 8/3/77

Col. Michael J. Parrett, Jr. Chlof, Comeral Litigation Division Office of the JAG HQ, USAF Workington, D.C. 20314

Dear Colenel Barrett.

In accord with your letter stamp dated August a check for \$5.10 is enclosed. Your letter raises many new questions, unfortunately, and it triggers recall.

The O.K. Farm case was infithe discovery material to which I have referred to eften without anyone paying any attention. It was in Terms or near there.

The reason for withholding that may in your mind be as you represent but to nayone who has seen the file, as I have god remember with some certainty, a more apparent reason is to bide the kinds of frauds that were perpetrated by the gong he! types with the feeding of wrong or incomplete and inaccurate information to vote to central what would be fed beak.

Tour chain to exemption, were it valid, has already been valved by the making of use, namely in my second suit for the damage to us by helicopers, among the relevant decisions I believe is American Mell v Gulick.

But as I've said before those records were to have been given to me in the form of copies in Givil 16392 T. Under these circumstances I'm surprise, particularly with the lapes of 18 years, that you raise any question.

I'm even more surprised because you are opposed to the directive of the Attorney Memoral on May 5 of this year. Be sounciated an entirely different policy.

I'm surprised that you find files now exactly where I've always said you would find them after so many assurances to me that there are none.

I presume one of your rank does not have time to read such files and to draft all his own letters.

So I am hoping that yo u will make enough of an inquiry to satisfy yourself that I have represented faithfully and to change this denial.

If you do not then I ask that you foreward this as my appeal from the refusal.

Sincerely,

Harold Weisberg
