28 March 1964

Dear John,

I am in bed suffering from physical exhaustion and so have the time to do a lot of things like writing letters.

552(b)(7)(c)

All of this takes about 19 hours a day of intense pressure so hence my exhaustion.

I still do all I can to help the Cuban patriots fight the Communists in Cuba as well as the CIA and Department of State. You should start reading of underground activities in Cuba in the near future. After two years of preparation the combined forces of Alpha 66-II Frente-M.R.P. under the command of Maj. Elroy Gutierrez Menoyo are about to go into action. The code name is "Plan Omega". The recent takeover in Zanzibar by Cuban trained Communists is only one more example of the danger we face in Cuba. Zanzibar will now export its Communism to all of Africa. The Communist inspired riots in Panama were predicted by Senator Goldwater in 1962. Another area of interest is the "fishing boats" that were captured in Florida and which precipitated the infamous water shutoff. These Lambda fishing boats have a range of 3500 miles, are 75 feet long, have mounts for .30 and .50 cal machine guns, and have provisions for mounting artillery as well as rockets and recoil-less weapons. They were designed in 1962 by Eugen Glinke and Alexander Ismov who are expert Russian naval engineers. These boats also carry the most sophisticated types of radar, sonar, and commo equipment. These NAVAL PATROL CRAFT did not suddenly become fishing boats and wander into our waters by accident. Just as a comical aside-guess what? The stupid CIA has scheduled a second invasion of Cuba to take place (you guessed it) at election time this year.

Please give my best to Nina, John, and Billy-

Sincerely,
