

Rt. 12, Frederick, Md. 21701

Mr. Norman Beardman, Information Officer  
National Security Agency  
Central Security Service  
Fort George G. Meade, Md. 20755      Serial N. 9022

Dear Mr. Beardman,

In your letter stamp dated 3 Feb you state you have had no prior correspondence with me. This is correct. However, you do not state that I had made no prior requests. I had, vis DOD, some years ago, prior to the amending of FOIA and the enactment of PA.

I am aware that you did not personally do what is stated in your concluding sentence:

"We have made a thorough search and report that we have no information concerning you in this Agency's systems of records or files."

You have been misinformed. Your statement is not accurate. If necessary I will prove this in court.

When your people so ~~misinform~~ misinform you no matter how much good faith I may be willing to ~~impart~~ attribute to you I simply cannot tell you what ~~proofs~~ proofs I have. Prior experience with other intelligence agencies has been instructive on this.

I will tell you that I have written official proofs of the inquiries into my life by your Agency and that this proof includes the names of the agents.

You also have records of interceptions of and about me, to my knowledge. Aside from my specific knowledge it simply is not possible from the testimony and other evidence adduced by recent Congressional investigations, particularly in the Senate, that your records do not include other interceptions that relate to me. (I do not here mean to suggest that interceptions are the only other relevant records.)

While I could give you other leads I limit myself to two. I have done most of the publishing and most of the original non-official investigation into the JFK assassination and all relating to that of Dr. Martin Luther King, Jr. (In addition to the books on the enclosed list there are limited editions and the out-of-print Oswald in New Orleans, dating to 1967.) In connection with this work my there were a number of trans-oceanic communications. When <sup>N</sup>ikita Khrushchev came here I was asked by USIA to challenge the USSR to peaceful competition in poultry husbandry. I did. In this connection I did hear from the Embassy of the USSR by phone and with what impressed me as extraordinary promptness. There was a tentative arrangement for Mrs. Khrushchev to be brought to the farm we then operated at Hyattstown, Md. There was another tentative arrangement for Russian officials to examine small but modern feed mills in this area. While scheduling precluded both, they were planned.

There have been official investigations of me that inevitably included your files.

Please ask your people to stop playing this game to which I have become accustomed and see to it that there is a real, an honest and full search and full compliance. In this please remember that I invoked both Acts and records of any source, nature or origin. This means even inquiries.

Under both Acts I also request all records on or in any way relating to the political assassinations in this country.

Sincerely,

Harold Weisberg
