Re CRM 1991

Dear Mr. Buckley,

Thank you for your letter of the 12th, its enclosures, and for referring my 1975 request to the Executive Office for United States Attorneys.

I regret some of the misunderstandings reflected in the records you provide and can understand the frustrations that were caused, but I believe that any review of these records reflects the fact that they are attributable to the long and unjustified delay in responding to the request when the statutory requirement was 10 days.

After all, it is a 1975 request that was ignored until 1977 and still is without full compliance. Some components still have made no response at all, in 1981.

When you write again would you please identify the CRM 24 and 1994 files?

Sincerely,

Harold Weisberg
