Dear Jin. Re the Hoover O & C File on Fred J. Wock

EW 6/21/78

The copy you sent is incomplete, as perhaps the copy you obtained also is. The last page, 5, has the note "continued - over" at the boottom.

The information also is incomplete, I'm sure such less complete than was in Hoover's files/office. Perhaps the explanation is in one of the hand notes at the bottom of the Jones to Bishop memo of 7/2 14/71, "CC in P.F." I believe this may reeflect the fiking of a copy in "personal files" of Hoover's, this being the likely meaning of P.F. I understand Hoover had such files, too.

This record is atypical in bearing no file designation, by number and serial.

The withholds are dubious in some instances.

Last graf, p. 2 the FBI voluntarily discloses that Boris Morros "was a Bureau informant." I had a file on him and gave it to Dave.

The selfOserving paper in the NURKIN records states that the FBI does not provide information to reporters and writers. On page 3 that the FBI did provide information to Gook on two different subjects is explicit.

Relevant in 1996.

Relevant re my PA request is the penult. graf on p.4 about the Writers and Editors V.N. protest. I also was a aignatory. In the copy I obtained from the GIA I was one of only about a half-domon marked for special interest. (Doc Speck I recall of the others you have a copy.) There may have been an ad that did not include me but I have no knowledge of any. I think this also means that the FEI had a file on this particular protest that include information on me, in general and as a basis for demanfiding a search of the Director's files. Or have I already? I think I have. I know I did for King redords.

Missing in this memo, I think conspicuously missing, is any reference to Cook's writing on the JFK assassination/Warren Commission. I think it probable that Jones and Bishop were not unaware of it.
