April 23, 1969

Mr. Carl W. Belcher, Chief General Crimes Section Grimiael Division Department of Mastice Weshington, D.C.

Deer Mr. Belcher,

If you were a judge rather them on attorney, would you say the record in consistent with the content and tone of your latter of March 25 to me or inconsistent, that you have been open with me, that through you the government has been responsive?

I select of you cortein meterial to which I believe I on entitled. I saked questions the enswers to which had been premised in the previous administration. I believe, without benefit of a law degree, that the meterial I seek is generated no by the law you are supposed to be uphalding.

and there has not been even the pro forms denied that might have been expected to the report that agents of the FRI had defended no.

I select for the promised further word on the suppressed David Ferrie documents. With his death so long ego, there is hardly justifies lies for withholding this information on the ground it would demage him lend he has no heir, having been unserried and childless). I remind you that I have part of this file, despite its restriction, and that what I have does not qualify for withholding. I report my previous request for this meterial or for an explanation of its being demied ma-

On Merch 31 I select for the evidence presented in court in England in the case of James Berl Rey. Now it would seem that that the presented in open court is public, that you have copies of it, having presented it, and that there should be no problem in providing copies to make a sked for permission to read the transcripts of the court preceding. Are you classifying this as "secret"?

It is now a menth since I requested copies of or access to the statements and questions of Department of Justice attorneys in Judge Hallock's court the afternoon of the hearing on the pictures and X-rays and copies of the subsequent motions and the affidavits them filed. Certainly this, whet your department presented in open court, is not restricted. Con it be that the government does not want its side included in a book about the matter? In any event, I want to include it, for I do went to present both sides - not eliminate one, as the government did. I do hope the new administration will not follow the restrictive practices of its preference, and that the isordinate delay that in itself is an interference with a free press will continue.
