Mr. E. Ross Buckley, FOIA/PA Unit Criminal Division Department of Justce Washington, D.W. 20530

Rt. 12, Frederick, Ed. 21701 7/8/77

FOI/CEN 2393

Dear Mr. Buckley,

The language in your 7/7/77 relating to my 6/8/77, " as to your statement that you were virtually a Department emploype" is imappropriate, unbecoming, prejudicial and the reflection of a state of mind that has those who are supposed to enforce and upheld the law in the constant role of lam-breakers. For which, being the prosecutors, they naturally

I ask that you correct this woth another latter to the office of the DAG, to which from your latter I presume you sent this one.

This is the kind of malicious creation of false refords that then are circulated to others to create further prejudice, do further have. Some I have obtained recently are overt and deliberate lies. Yours is just self-indulgence of a perfected sense of hamer or the kind of knows and nails dirty-work that the the necessary and henerable roll of federal etterney a bad name. In this case deservedly and not only becaus of this matiness,

Iesterday I was almost hospitalized. I am in no mood to put up with any more of this mastinees, I am asking for a record of every distribution of your letter of the 7th and of a record of a rectification being sent for simultaneous filing. (Is this not a right under PA,

Notween the unjustified delay in your response and the fragility of memory I do not redall exactly what I did tall you because some of it is delicate as it relates to others, not me.I am confident what I said is thuthful/A and unexastantiat.

Correct me if I recall PA incorrectly, but I believe under it you may not charge the search fees you sock to assess. Correct me also is I am wrong in believing that the department's components, at one point or a other and for one reason or another, have indexes at least for names on the Hiss and Rosenberg causes and a central index of all names that the FBI keeps, with reference to file numbers. From this and any other work of which I believe it is necessary to read each and every document. I have mean a couple of these other than ignocent through the mind set reflected in your first paragraph. Obviously I

What do you mean "we construe your latter, also, to be a request for any records about yourself contained in the Griminal Division's file on thePelley- Mayne - Silver Shirts matter." / My requests on these satters go ha ck to 1975 and are without response or compliance. You may made the indict me in that matter and you omit my name in your description of the "matter." In every sense here also you create a less than honest and prejudicial record to influence the vast hursandragy. There is no possibility of these damaged by such abures ever catch-

This is not a new request of 6/8/77. It is covered by two prior requests under PA and POIA (and I think earlier correspondence with you). These go back to about 9/75 and were correct date and process in accord with that you go over yours requests, get the date of receipt. I am not responsible for what happens to sy requests once they are received and I do not accept any delay of a year and a half, real or pretended, in their reaching

There are exigent and unique circumstances. I would hope not to have to invoke them with such old requests. I await hearing further from you and I de hope it takes less than a full month and an avoid that to which is this I object. Mincerely, Harold Weisberg
