ASSASSINATION OF
 PRESIDENT JOHN FITZGERALD KENNEDY
 DALLAS, TEXAS, 11-22-63
 MISCELLANEOUS - INFORMATION
 CONCERNING
 (OO: Dallas)

Enclosed are two Xerox copies of a letter dated December 2, 1970, from Harold Weisberg of Frederick, Maryland. One copy of this letter is enclosed for the information of the Dallas Office.

Mr. Weisberg should be contacted promptly, his letter to the Bureau acknowledged, and full details concerning the circumstances surrounding the location of the bullet should be obtained. The identity of the individual finding the bullet should also be ascertained. In addition, Mr. Weisberg should be queried as to specifically what examination the bullet has been subjected to.

It is observed that if the bullet was located in a planter which was constructed subsequent to the assassination, it would appear to have no evidentiary value and would be of no interest to the Bureau.

Also determine the circumstances surrounding the duplication of Warren Commission Exhibit 399, and this bullet along with the suspect bullet should be submitted to the Bureau, attention FBI Laboratory, in the event that either appears to have any relevance to our investigation of the assassination.
