Citation on Zachary and the assassination of President Roosevelt: Senate Civil Liberties Committee Record, testimony of Ralph G. McIlvane, 154 Porter So., NE, Warren, Ohio, a chef, member of the Bartenders' and Culinary Workers Union, AF ofL, who, "4 or 5 months before the Presidential election of 1936", in the home of Howard H. Luse, Warren City Councilman, heard Roy Zachary speak. McIlvane testified ( pt. 31, p. 12780 ) about this speech:

Well, he was discussing the actions of the President, and what was going on the the government; and this man said: "That will be eliminated, because President Roosevelt will be assassinated."

Luse's testimony appears in the same book beginning on p. 12777.

Note. I testified to this incident and gave the Dies Committee the citation and was closely cross-examined on it by Congressmen Dempsey and Voorhis on 1/31/40, but when Pelley subsequently appeared before the Dies committee he was not, so far as I can discover, questioned about it.
