

FONZI.....24 June 1979

three people at cia have recalled ~~knowing~~ hearing speak of M Bishop...

1) McCone...who, later, when told that name traces revealed no trace, said 'Oh well, I must have been mistaken'

2) Second man...officer /killer....said he recalled meeting him 'in the lobby'. sticks by his word....fonzi thinks this disinformation

3) Third man was tumbled on by HSCA investigators....said he knew MB was cover name used by real man called X (whom fonzi knows name of), because he had been told so years ago by his senior officer Y. Y, questioned by HSCA, denied it. Fonzi believe 1 and 3.

Fonzi says MB is highly proficient in 'psychological warfare, deception, and counter-intelligence.' And that thus I ought to know who he is. ~~Holmes???~~

Phillip

Fonzi also told tale at lunch with me and Bruce Lee about sending up his Staff Report to HSCA saying there was reason to believe Bishop really existed, and opposite version came back down the line. Fonzi objected vociferously, and it was changed back to the way he wanted it.
