DURAN

I have heard from Bill Chislett that (after enormous boredom and expense at the Customs Office!) he got the videotape to you. But I have heard no news of what you made of the pictures of Oswald walking and talking. I need your opinion fairly fast now, and it does not look as if I'm going to have the money or time to get down to Mexico after all. Would you drop me a line right now (at above new address), letting me know what your opinion is. Especially what your immediate reaction was when you first saw the tape.

Thanks very much.

Anthony Summers
