

Hitler's & Hitler's friends as well as the plans
of the Hitler's secret service
in Germany to kidnap the Royal family

Reviews of the book, even though there may be a lack of
the fact of the book, it is worth reading. Certainly the
concrete plan in Germany that the substance of the
book is supported by (both English and German) but reliable,
sources available to the world's public.

His own whereabouts at relevant times...

V says ~~Phillips~~ Bishop was with him in Havana mid 1960.....Phillips' book indicates that he left Cuba by MARCH ¹⁹⁶⁰ ~~1960~~.....other information suggested otherwise....for example he is still listed in the ANGLOAMERICAN DIRECTORY OF CUBA FOR THAT YEAR as DAVID AT LEE PHILLIPS....PUBLIC RELATIONS COUNSELLOR, DAVID A PHILLIPS ASSOCIATES.....(his cover apparently at that period)

CIA
COVERS (AND PHILLIPS BACKGROUND)

~~INTERVIEWED~~

COVERS AND CONSPIRACIES...

in his book even he writes...(P81)

My case officer asked me to undertake a 'special mission'. A group of anti Castro Cubans in Havana was planning the first coup attempt against the new regime. He gave me the names of several conspirators, with the proposal that I approach one of them as an American anxious to ~~help~~ assist anyone plotting against Castro.....(Phillips adds) I could approach and cultivate one of the conspirators using a false identity, perhaps in disguise.....(he goes on say he did it...'after approaching and cultivating one of the conspirators.!!!..

THIS MAY NOT HAVE BEEN THE V EPISODE ITSELF...BUT ITS EXACTLY THE SORT OF OPERATION AT EXACTLY THE RIGHT TIME... ALSO IN MEXICO CITY AT TIME OF ASSASSINATION

(P114) Most of my time (in Mexico City) was spent on anti-Castro ~~operation~~ propaganda operations'.

Progress Memo 512-345-4950 (A)

on Mexico City - missed the LBS - intelligence only given on "need to know" basis.

Washington had info & didn't have, & received. Only lack of lead of alleged plot to kill Castro: one intelligence in Embassy knew O had been in Cuba & SW embassy: ~~source~~ informant continued saying necessary: in Mexico for Washington to cover investigation. Only time in government I've been asked to stop & had capture in my CIA boss.

2 visits to Mexico by Oswald

reported "need to know" basis
denying that Select Committee got involved.
denying to intelligence agency.

of informant was Mexican national - reliable.
we were clearly in touch with Revere on intelligence matters.
should have been talked to in USA.

Perhaps he was handed over
Mexico & discussed on payment.
Sent telegram expressing his anger.

← On 1 reason still puzzled was Hoover (a friend) behavior.
"cover-up" over Durn.

Revere for not to verify like something they knew to be going on.

SWA (CIA) - ^{furios} former that saying stopped, but "he
