Dear Max,

Well, the great day should be past now. I hope the book get to press okay. At least I assume no emergencies arrose because I didn't hear from you.

When will you have proofs, and when will it be out?

Remember, Riley Moore said they'd have to have proofs of the whole thing before they could write an introduction.

Remember, also, there is some dough coming to me that I had expected would be waiting for me on my return. Counting expenses it came to a balance of \$66.05, I believe. Will you please send it along? Thanks.

How goes everything?

Yours
