

~~Washington, D.C. and I will be in Washington, D.C. on October 22, 1942~~

This is the "realistic" approach. Everything on individual jobs should come out. Also, they will carry otherwise provide for their own means and expenses but

Enclosed are your chapter on the WAAC and a copy of speech by Mrs. Hobby. Specifics are in the copy of the WAAC and a copy of the WAAC and a copy of the WAAC

*As I told you over the phone today, I expect to be able to get the two chapters you sent me in the morning. They have been checked and corrected for accuracy by the proper officers and late this afternoon were delivered to the Review Branch. I also expect to be able to either get the other chapters that will have been approved by then or make the changes that will get them immediate approval.*

As I told you over the phone today, I expect to be able to get the two chapters you sent me in the morning. They have been checked and corrected for accuracy by the proper officers and late this afternoon were delivered to the Review Branch. I also expect to be able to either get the other chapters that will have been approved by then or make the changes that will get them immediate approval.

He job classifications. I have spoken to ~~Robert~~ and he said with the list it is okay. He also says about Ulio the thing to do is approach him again as soon as the entire Army section is approved.

As I told you, re: Waacs, their position was that this section was inaccurate and not a realistic picture. So far as the accuracy is concerned, I have gone over this with the proper officer, and everything down to the beginning of the section on "Kinds of Work," at the bottom of page 6, is accurate as changed. From there on, however, they dont approve. However, before going into that, they would prefer that you omit the section marked with a question mark on p.2. Also, there is a bill that passed both Houses and awaits Presidential signature that will change all WAAC salaries to coincide with rmy pay. It will be law in a matter of days, and you should watch the Times for it. Now here is the stuff of "Kinds of Work". It is not individual work, and Auxiliaries dont join to be individuals or do individual work. They are not and will not be used individually. They will be doing the work in which their platoons are

~~engaged. In other words, a platoon will be sent to a place where they will~~

~~engage. In whatever work they will be doing, on a platoon and not on an~~

~~individual basis. This the~~

in whatever work they will be doing, on a platoon and not an individual basis.

This is the "realistic" approach. Everything on individual jobs should come out.

Also, they will carry otherwise provide for their own mess arrangements, but

they will not bake or cook for them. Also, all go to Ft. Des Moines for

training. Specialists schools are in the city of Des Moines and Officers

schools are at the Fort.

*way in Mrs H's speech*

It was suggested that you could more easily get a "realistic" approach if you

went to the NYC City recruiting station and spoke to one of the woman assigned

there. Also, I was assured that approval would be forthcoming immediately

is you take said realistic approach. In other words, with the last part of this

chapter rewritten, I should be able to take it down there early in the morning

with approval, by the morning.

I've dashed this off in a hurry so you could have it in the morning.

Yours,

Yours,

Harold Weisberg

over this with the proper officer, and everything down to the beginning of the

section on "Kinds of work," at the bottom of page 6, is accurate as changed.

from there on, however, they don't approve. However, before going into that,

they would prefer that you omit the section marked with a question mark on p. 5.

Also, there is a bill that passed both Houses and expires in the next

signature that will change all the salaries to coincide with my pay. I will

be far in a matter of days, and you should watch the times for it. Now here is

the status of "Kinds of work." It is not individual work, and this is about

not to be individuals or to individuals. They are not and will not be

used individually. They will be used in platoons and
